CARE AND MAINTENANCE

Congratulations! You have purchased the world's finest spa cover. To keep your cover in good condition, a few simple maintenance steps and precautions should be followed:

1. Pets, children, and other objects must be kept off the cover. The cover should never be used as a table. This can cause permanent damage to the foam inserts, except for walk-on covers, which will easily hold the weight of two average adults.
2. All heat producing objects such as grills, lanterns, etc. should be kept away from the cover. Excessive heat will damage the vinyl and foam inserts.
3. The cover should be kept clean. Do not let dirt or debris accumulate. Washing the vinyl with a vinyl cleaner on a regular basis will keep the spa cover looking good for years. Vinyl conditioners should be applied periodically.
4. Never use harsh chemicals on the cover. Do not use mildew removers on the cover.
5. When adding chlorine or other chemicals to the spa, move the cover completely away from spa so that splashing cannot inadvertently reach the cover.
6. **WARNING:** Do not use Tri-Chlor Sanitizers. Use of Tri-Chlor will void cover warranty.
7. After adding chemicals to your spa leave your cover off for 1-3 hours.
